

Environmental **Policy**

IMS-POL-012

1 1. Purpose

EnSmart Power is committed to protecting the environment by conducting our business in a responsible and sustainable manner. We recognise that our activities have an environmental impact and are committed to minimising that impact through responsible resource management, pollution prevention and continual improvement.

This policy supports our commitment to environmental stewardship while delivering innovative power conversion and energy storage solutions that contribute to a cleaner and more sustainable future.

2. Scope

This policy applies to all employees, contractors, suppliers and others working on behalf of EnSmart Power across all business activities, products and services.

3. Our Commitment

We are committed to developing technologies that support the transition to cleaner, smarter and more resilient energy systems, helping our customers reduce their environmental impact while improving energy efficiency.

EnSmart Power will:

- Comply with all applicable environmental legislation, regulations and other compliance obligations.
- Protect the environment through the prevention of pollution and responsible environmental management.
- Improve energy efficiency and promote the responsible use of natural resources.
- Reduce waste by applying the principles of reduction, reuse and recycling wherever practicable.
- Consider environmental impacts throughout the design, manufacture, installation and support of our products and services.
- Encourage the sustainable procurement of materials and services.

- Promote environmental awareness and responsibility among our employees and business partners.
- Establish environmental objectives and monitor our performance to drive continual improvement of our Environmental Management System.

4. Responsibilities

Management is responsible for providing leadership, resources and support to implement this policy and achieve our environmental objectives.

All employees are responsible for:

- Working in an environmentally responsible manner.
- Following environmental procedures and controls.
- Reducing waste and preventing pollution wherever possible.
- Reporting environmental incidents, risks or opportunities for improvement.
- Supporting EnSmart Power's environmental commitments through their day-to-day activities.

5. Monitoring and Review

EnSmart Power will monitor environmental performance through inspections, audits, objective reviews and management review meetings. This policy will be reviewed periodically to ensure its continued suitability, effectiveness and compliance with applicable environmental requirements.

Our Commitment

At EnSmart Power, protecting the environment is integral to the way we do business. Through responsible practices, innovative technologies and continual improvement, we are committed to reducing our environmental impact and supporting a more sustainable energy future.
